

SHARE 2013 YEAR-END SUMMARY

Major Milestones

- 148 health care sites and 498,454 patient records are on-boarded to SHARE.
- OHIT and Delta Regional Authority partnered to offer \$10,000 grants to Critical Access and Small Rural Hospitals to connect to SHARE. Grants will be awarded to 12 hospitals in January 2014.
- OHIT is helping make SHARE more affordable to the provider community by negotiating statewide contracts with EMR vendors that reduce or eliminate the vendor's one-time interface fee to connect to SHARE. The average savings for providers is \$10,000.
- OHIT is building interfaces to the Arkansas Department of Health, including a gateway for Immunizations and connectivity for ELR and Syndromic Surveillance to automate public health reporting through SHARE.
- For the Arkansas PCMH project, effective January 2014, Medicaid is requiring Practices to use SHARE to transmit admission/discharge data between unaffiliated participants.

Participation Update

Health Information Exchange (HIE)

- **Lab Transactions:** 2,422,817
- **Radiology Transactions:** 344,254
- **Admission, Discharge and Transfer (ADT) Transactions:** 2,907,466
- **Transcribed Document Transactions:** 48,799

Secure Messaging

- **Individual Users:** 2,771
- **Messaging Facilities (where users are employed):** 394
- **Secure Messages Sent:** 31,196

Connecting EMR/EHR Vendors

SHARE is working with health IT vendors to negotiate statewide contracts and develop interfaces that deliver clinical data directly to a provider's EMR system through SHARE. The vendors below have or are implementing an interface to SHARE in at least one health care setting in Arkansas. For a complete list of EHR/EMR vendors that are connected to SHARE, visit www.SHAREarkansas.com/vendors.

Vendors with Negotiated Statewide Pricing

- eClinicalWorks
- Greenway
- GE Centricity
- SuccessEHS
